

DOCKFLEX

**80°C
MAX.**

Inner Tube: black synthetic rubber tube resistant to crude oil, oil derivatives, biodiesel and alcohol.

Reinforcement: high tensile textile braid with a steel helix wire and static conductive filament.

Cover: smooth (wrapped), made from black rubber that is abrasion, weather and oil derivative resistant.

APPLICATION

Recommended and developed especially for severe loading and unloading operations with crude oil, oil derivatives, biodiesel and alcohol at docks, refineries and petrochemical plants. Meets standard BS EN 1765 and ISO 1823-1, which requires only integral nipple type end fittings for this product.
